# Royal Society of Chemistry Books

---

The Royal Society of Chemistry is the world's leading chemistry community, advancing excellence in the chemical sciences. With a knowledge business that spans the globe, we are the UK's professional body for chemical scientists; a not-for-profit organisation with 170 years of history and an international vision for the future.

We promote, support and celebrate chemistry while working to shape the future of the chemical sciences – for the benefit of science and humanity.

We are the only major society publisher of chemical science books. With over 1,300 titles forming a collection spanning 46 years of research, our titles are carefully commissioned to appeal to a diverse readership.

## What our Medicinal Chemistry and Biomolecular Science books portfolio has to offer you

---

Featuring a superb selection of book series, textbooks and professional reference titles, our Medicinal Chemistry and Biomolecular Science portfolio:

- **details the latest research advances in medicinal chemistry and biomolecular science;**
- **highlights ground-breaking technology;**
- **provides reference information, opinions and perspective on modern science.**

If you need help with background reading, insight to advance your career or simply want to fill any gaps in your knowledge, our selection of medicinal chemistry and biomolecular science titles will be an indispensable resource.

Here, we feature some of our highlights from the Medicinal Chemistry and Biomolecular Science portfolio. To view all our titles, visit [\*\*www.rsc.org/books\*\*](http://www.rsc.org/books)

## Also of interest

---

In addition to our book titles, we also have a wide range of journals that you can trust to deliver high quality content. Choose from journals including *Organic and Biomolecular Chemistry*, *MedChemComm*, *Integrative Biology*, *Molecular Biosystems*, *Metallomics* and *Toxicology Research*.

# Medicinal Chemistry and Biomolecular Science series

## RSC Drug Discovery

**Editor-in-Chief:** **David Thurston** Kings College London, UK

**Series Editors:** **David Rotella** Montclair State University, USA | **Ana Martinez** Centro de Investigaciones Biologicas-CSIC, Spain | **David Fox** Vulpine Science and Learning, UK

**Advisor to the board:** **Robin Ganellin** University College London, UK

Providing comprehensive coverage of all aspects of drug discovery, books in this series are a valuable resource for postgraduate students as well as scientists in academia or industry wanting to learn about topics outside their own areas of expertise.

### *Highlights from the series*

#### Biotherapeutics: Recent Developments using Chemical and Molecular Biology

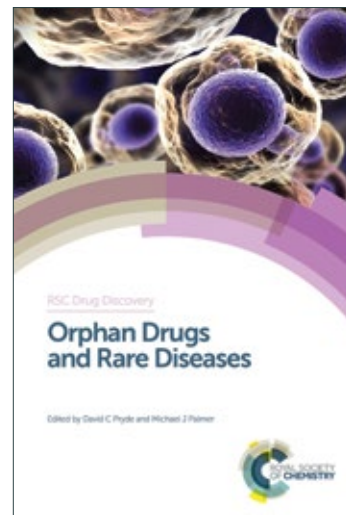

**Lyn H Jones** Pfizer, USA | **Andrew J McKnight** AnaptysBio Inc., USA

Hardback | 336 pages | 9781849736015 | 2013 | £159.99 | \$260.00

#### Anti-Inflammatory Drug Discovery

**Jeremy I. Levin** University of Manitoba, Canada | **Stefan Laufer** Universitat Tübingen, Germany

Hardback | 528 pages | 9781849734134 | 2012 | £159.99 | \$260.00

Orphan Drugs and Rare Diseases,  
Hardback | 350 pages  
9781849738064 | 2014  
£175.00 | \$280.00

## Issues in Toxicology

**Editor-in-Chief:** **Diana Anderson** University of Bradford, UK

**Series Editors:** **Michael Waters** Integrated Laboratory Systems, Inc., USA |

**Timothy Marrs** Edentox Associates, Kent, UK

**Advisor to the board:** **Alok Dhawan** Ahmedabad University, India

The Issues in Toxicology Series is a suite of professional reference books covering all aspects of toxicological research with a focus on modern toxicology and risk. It features contributions from experts in academia, government and industry.

### *Highlights from the series*

#### Reducing, Refining and Replacing the Use of Animals in Toxicity Testing

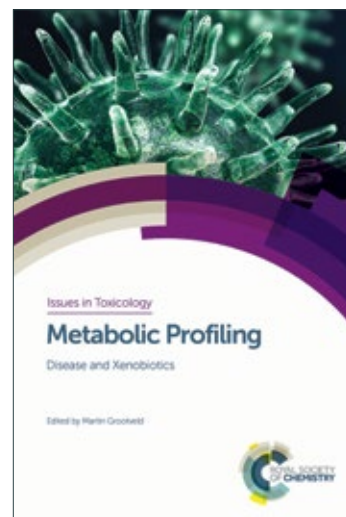

**Dave Allen** and **Mike D Waters** Integrated Laboratory Systems, Inc., USA

Hardback | 362 pages | 9781849736527 | 2013 | £159.99 | \$260.00

#### Chemical Toxicity Prediction: Category Formation and Read-Across

**Mark Cronin**, **Judith Madden**, **Steven Enoch** and **David Roberts** Liverpool John Moores University, UK

Hardback | 191 pages | 9781849733847 | 2013 | £114.99 | \$190.00

Metabolic Profiling  
Hardback | 395 pages  
9781849731638 | 2014  
£175.00 | \$208.00

## RSC Metallobiology

**Editor-in-Chief: C. David Garner** University of Nottingham, UK

**Series Editors: Hongzhe Sun** University of Hong Kong, China | **Anthony Wedd** University of Melbourne, Australia

**Editorial Advisors: Alison Butler** University of California Santa Barbara, USA | **Stefano Luciano Ciurli** University of Bologna, Italy

The scope of this series encompasses all aspects of the roles of metals in biological systems. It will be of interest to academics and those working in industry in a wide range of disciplines, including inorganic biochemistry, medicinal chemistry and metallomics.

### *Highlights from the series*

#### Mechanisms and Metal Involvement in Neurodegenerative Diseases

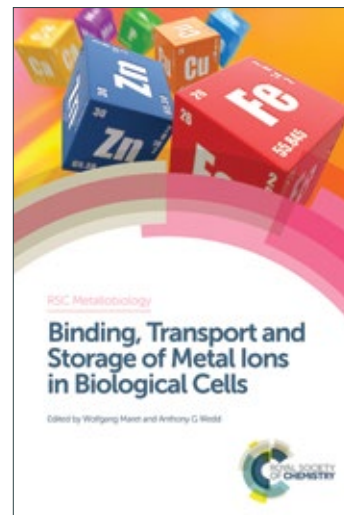

**Roberta Ward and Robert Crichton** Catholique University of Louvain, Belgium | **David Dexter** Imperial College London, UK

Hardback | 230 pages | 9781849735889 | 2013 | £139.99 | \$240.00

#### Binding, Transport and Storage of Metal Ions in Biological Cells

**Wolfgang Maret** Kings College London, UK | **Anthony Wedd** University of Melbourne, Australia

Hardback | 938 pages | 9781849735995 | 2014 | £195.00 | \$310.00

Binding, Transport and Storage of Metal Ions in Biological Cells  
Hardback | 938 pages  
9781849735995 | 2014  
£195.00 | \$310.00

## RSC Chemical Biology

**Editor-in-Chief: Tom Brown** University of Oxford, UK

**Series Editors: Kira J Weissman** Lorraine University, France | **Chris L Dupont** J. Craig Venter Institute, USA | **Sabine Flitsch** University of Manchester, UK | **Nick J Westwood** University of St Andrews, UK

A new series that aims to provide a suite of reference books on research at the interface of chemistry and biology. The series is open for book proposal submissions.

## Specialist Periodical Reports

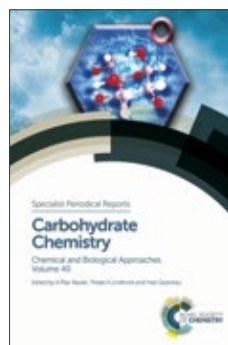

### Synthetic Biology

Volume 1

Maxim Ryadnov, Luc  
Brunsveld and Hiroaki Suga

Hardback | 374 pages  
9781849736831 | 2014  
£314.95 | \$505.00

### Carbohydrate Chemistry

Volume 40

Amelia Pilar Rauter, Thisbe  
Lindhorst and Yves Queneau

Hardback | 670 pages  
9781849739658 | 2014  
£314.95 | \$505.00

## Professional Reference titles

### Quantitative Proteomics

Claire E Eyers and Simon  
Gaskell

Hardback | 390 pages  
9781849738088 | 2014  
£165.00 | \$264.00

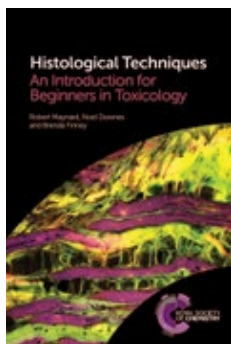

### Advances in Biological Solid-State NMR

Proteins and Membrane-  
Active Peptides

Frances Separovic and Akira  
Naito

Hardback | 630 pages  
9781849739108 | 2014  
£175.00 | \$280.00

## Textbooks and course materials

### Histological Techniques

An Introduction for Beginners  
in Toxicology

Robert Maynard, Noel  
Downes and Brenda Finney

Hardback | 334 pages  
9781849739924 | 2014  
£84.99 | \$140.00

### Biophysical Chemistry

2nd Edition

Alan Cooper

Paperback | 244 pages  
9781849730815 | 2011  
£21.99 | \$35.00

## Also of interest...

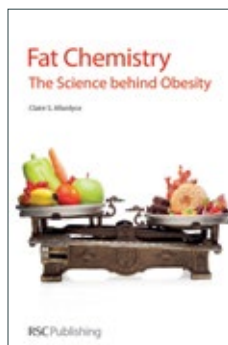

### Chocolate as Medicine

A Quest over the Centuries

Philip K Wilson and W Jeffrey  
Hurst

Paperback | 213 pages  
9781849734110 | 2012  
£29.99 | \$48.00

### Fat Chemistry

The Science behind Obesity

Claire S Allardyce

Paperback | 384 pages  
9781849733250 | 2012  
£24.99 | \$40.00
