Editor-in-Chief: Chris Hardacre, Queen's University Belfast, UK

Series Editor: Jose Rodriguez, Brookhaven National Laboratory, USA

Overview

Catalysis is a major area of scientific research and cover numerous fields of chemistry. Catalysis is a key factor in facing many of the scientific challenges of the 21st century, such as renewable energy systems and environmental protection. The RSC Catalysis Series provides an accessible reference for postgraduates, academics and industrialists working in the field of catalysis and its applications. The Series covers research developments and applications of catalysis, in both academia and industry.
