The Merck Index 15th Edition Chemistry's Constant Companion[®]

Editor Maryadele J. O'Neil

The Merck Index is *the* definitive reference work for scientists and professionals looking for authoritative information on chemicals, drugs and biologicals.

It has been the leading source of information on chemical compounds for generations of scientists and professionals, selling over one million copies since its publication in 1889.

The 15th edition is now available exclusively from the Royal Society of Chemistry, and is the first new edition since 2006.

The Merck Index contains over 10,000 monographs with information relating to compounds of significance in research, commerce and environmental impact.

Compounds covered include

- Human and veterinary drugs
- Biotech drugs and monoclonal antibodies
- Substances used for medical imaging
- Biologicals and natural products
- Plant and herbal medicines
- Nutraceuticals and cosmeceuticals
- Laboratory reagents and catalysts
- Dyes, colours and indicators
- Environmentally significant substances
