

Supporting Information

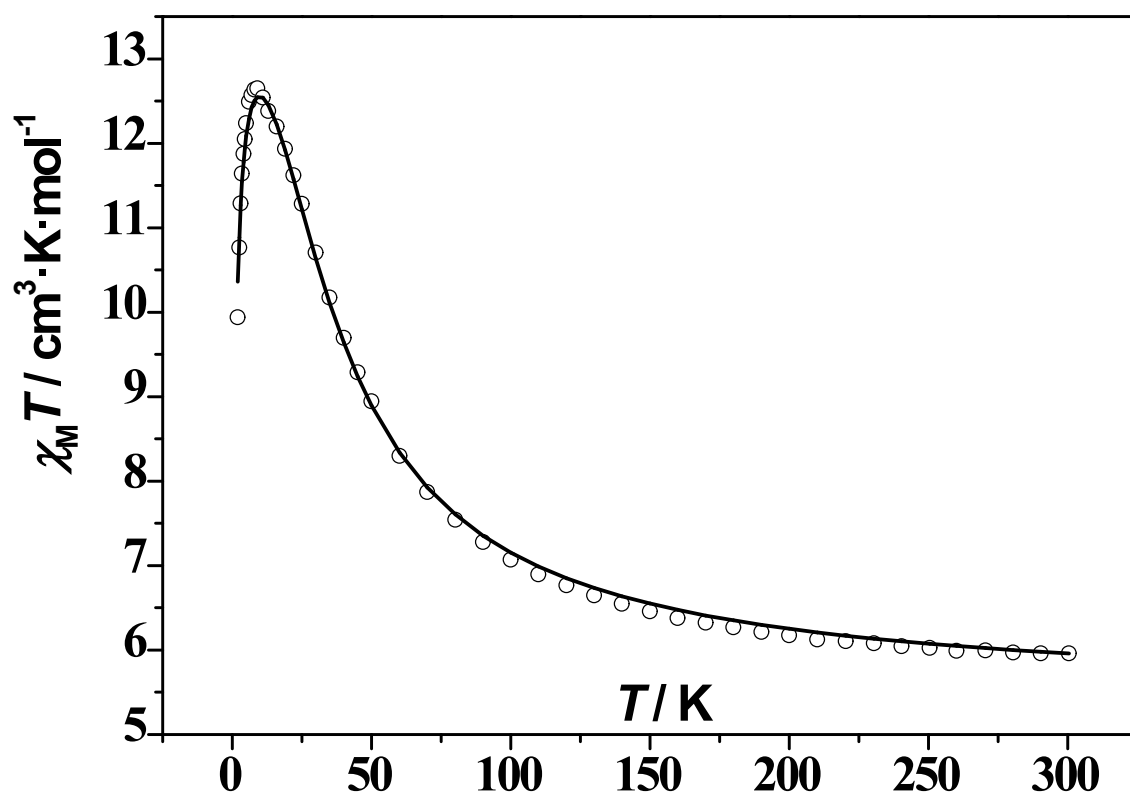

Figure S1. $\chi_M T$ versus T plot for compound **2**. Solid lines correspond to the best fit obtained.

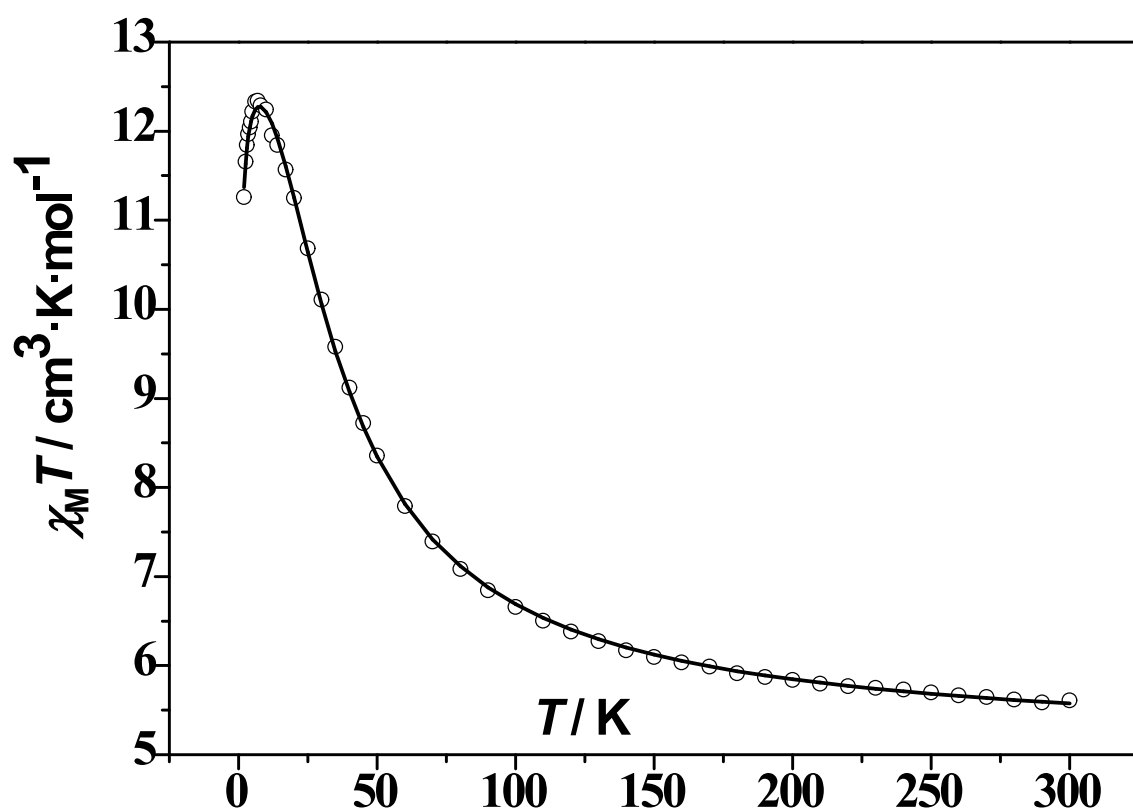

Figure S2. $\chi_M T$ versus T plot for compound **3**. Solid lines correspond to the best fit obtained.

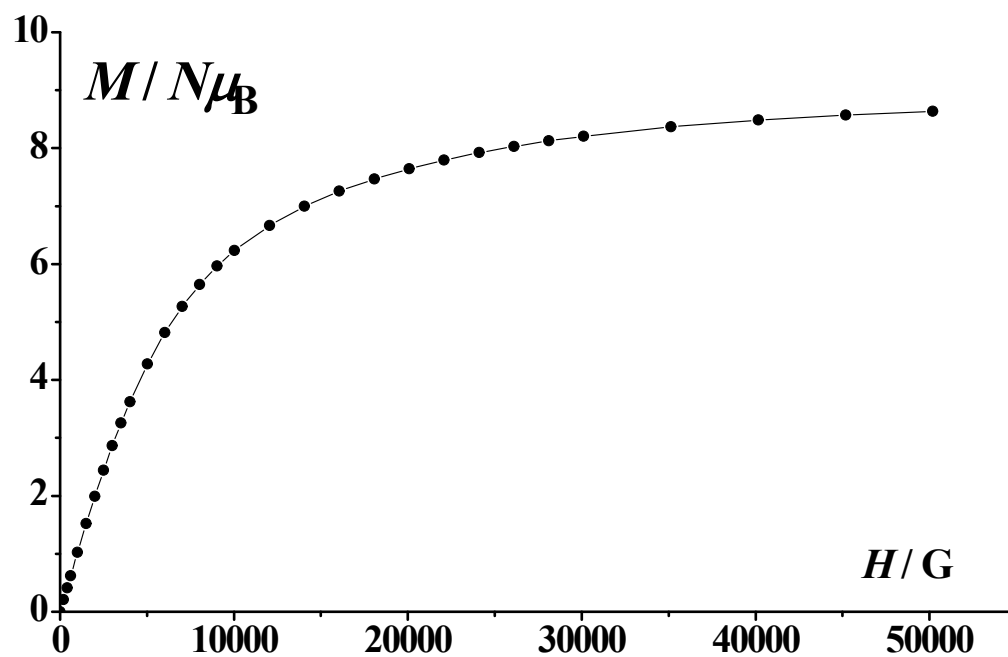

Figure S3. Magnetization at 2 K vs. applied field in Gauss for **2**. The solid line in the plot is a guide for the eye.

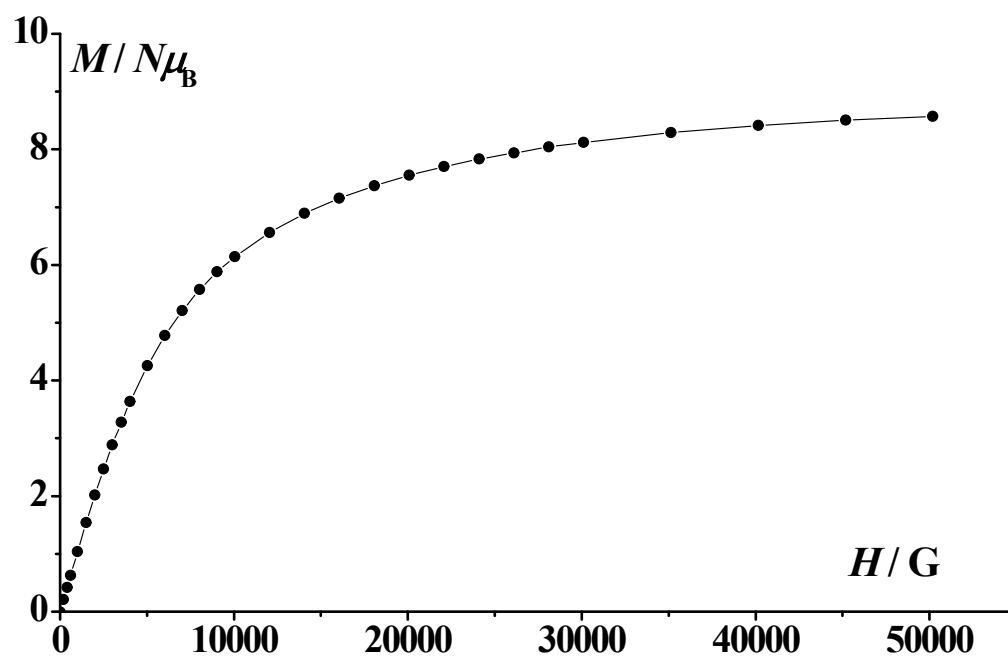

Figure S4. Magnetization at 2 K vs. applied field in Gauss for **3**. The solid line in the plot is a guide for the eye.
