\textsuperscript{2}Department of Chemistry and Biochemistry, Arizona State University, Tempe, Arizona 85287-1604.

Table of Content

**Figure S1.** Temperature-programmed desorption (TPD) profile of CO\textsubscript{2} desorbed from CaGEO-4.

**Figure S2.** 400 MHz \textsuperscript{1}H NMR spectra of the product extracted by hexanes after the transesterification with CaGEO-4 (a), and a biodiesel standard for comparison (b).
Figure S1. Temperature-programmed desorption (TPD) profile of CO$_2$ desorbed from CaGEO-4.
Figure S2. 400 MHz $^1$H NMR spectra of the product extracted by hexanes after the transesterification with CaGEO-4 (a), and a biodiesel standard for comparison (b).
