Figure S1 Comparison of the photocatalytic activities in degradation of RhB by ZSH, Ag@AgCl, Ag-ZSH and Ag@AgCl(8 wt%)/ZSH.
Figure S2 The degradation rate constants of RhB (a) and CV (b) solution with different samples.
Figure S3  The XRD patterns of the used and fresh Ag@AgCl/ZSH-20 in the photodegradation of RhB solution under visible light irradiation for five consecutive cycles.
