Copies of spectra .....................................................................................................................................................2-47
$^1$H NMR of the reaction between D-$(+)$-ribose and malononitrile in presence of InCl$_3$ in D$_2$O

$^1$H NMR of the reaction between D-$(+)$-ribose and malononitrile in presence of Yb(OTf)$_3$ in D$_2$O
$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of CeCl$_3$ in D$_2$O

$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of DBU (1.0 equiv.) in D$_2$O
$^1$H NMR of the reaction between D-\((+)-\) ribose and malononitrile in presence of EtN$_3$ (1.0 equiv.) in D$_2$O
$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of NaOMe (1.0 equiv.) in D$_2$O

$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of K$_2$CO$_3$ (1.0 equiv.) in D$_2$O
$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of NaHCO$_3$ (1.0 equiv.) in D$_2$O

$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 10 mol% Et$_3$N after 4 h in D$_2$O
$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 5 mol% Et$_3$N after 4 h in D$_2$O

$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 15 mol% CsCO$_3$ after 4 h in D$_2$O
$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 15 mol% K$_3$PO$_4$ after 4 h in D$_2$O

$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 15 mol% NaO'Bu after 4 h in D$_2$O
$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 15 mol% Me$_3$N after 4 h in D$_2$O

$^1$H NMR of the reaction between D-(+)-ribose and malononitrile in presence of 15 mol% Et$_3$N after 4 h in MeOD

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 20 m

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 40 m
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 60 min

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 80 min
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 100 m

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 120 m
$^1$H NMR of the reaction between D-(-)-ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 140 min

$^1$H NMR of the reaction between D-(-)-ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 160 min.
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 180 min

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with Et$_3$N (15 mol%) in D$_2$O after 4 h
$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with DBU (15 mol%) in D$_2$O after 20 min

$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with DBU (15 mol%) in D$_2$O after 40 min
\(^1\)H NMR of the reaction between D-(+)-ribose, malononitrile with DBU (15 mol\%) in D\(_2\)O after 60 min

\(^1\)H NMR of the reaction between D-(+)-ribose, malononitrile with DBU (15 mol\%) in D\(_2\)O after 80 min
$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with DBU (15 mol%) in D$_2$O after 100 m

$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with DBU (15 mol%) in D$_2$O after 120 m
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with DBU (15 mol%) in D$_2$O after 140 minutes

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with DBU (15 mol%) in D$_2$O after 160 minutes
$^1$H NMR of the reaction between D-(-)-ribose, malononitrile with DBU (15 mol%) in D$_2$O after 180 min

$^1$H NMR of the reaction between D-(-)-ribose, malononitrile with DBU (15 mol%) in D$_2$O after 4 h
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 20 minutes

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 40 minutes
$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 60 minutes

$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 80 minutes
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 100 minutes

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 120 minutes
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 140 minutes

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 160 minutes
$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 180 minutes

$^1$H NMR of the reaction between D-(+)- ribose, malononitrile with K$_2$CO$_3$ (15 mol%) in D$_2$O after 4h
$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 20 m

$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 40 m
$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 60 m

$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 80 m
$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 100 m

$^1$H NMR of the reaction between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 120 m
$^1$H NMR spectrum of between D-(+)-ribose, malononitrile with NaOMe (15 mol%) in D$_2$O after 140 m
