Title, authors and description of supporting information content……………………………………1
Figure S1 Job’s plots of the interaction of benzo[6]uril 1 with guest 3……………………………2
Figure S2 ECL intensity of different incubation time of host 1 with guest 2………………………3
Figure S3 ECL intensity of different incubation time of host 1 with guest 3………………………4
Figure S4 1H NMR spectra of benzo[6]uril 1 at 25 °C.........................................................5
Figure S5 13C NMR spectrum of benzo[6]uril 1……………………………………………………6
Figure S6 High resolution MS of benzo[6]uril 1.................................................................7
Figure S7 ECL intensity of host 1 with 1 mM guest 2 and 100 mM guest 3…………………………8
Figure S8 ECL intensity of host 1 with different concentrations of guest 2............................9
Figure S9 ECL intensity of host 1 with different concentrations of guest 3.........................10
Figure S10 ECL intensity of host 1 absorbs luminol with different concentrations of guest 2…..11
Figure S11 ECL intensity of host 1 absorbs luminol with different concentrations of guest 3…..12
Figure S1. The Job’s plot of the interaction between benzo[6]uril 1 and guest molecule 3. The total concentration was maintained at $1.0 \times 10^{-5}$ mol·L$^{-1}$ and the fluorescence intensity was recorded at $\lambda_{em} = 327$ nm and $\lambda_{ex} = 304$ nm.
**Figure S2.** Effect of incubation time on the ECL intensity of the benzo[6]uril 1/GCE in 0.2 M pH=12.0 hepes buffer solution after incubation in 1.0 uM paraquat solution.
Figure S3. Effect of incubation time on the ECL intensity of the benzo[6]uril 1/GCE in 0.2 M pH=12.0 hepes buffer solution after incubation in 1.0 uM diquat solution.
Figure S4. $^1$H NMR spectrum of benzo[6]uril 1 at 25 °C.
Figure S5. $^{13}$CNMR spectrum of benzo[6]uril 1.
Figure S6. High resolution MS of benzo[6]uril 1.
Figure S7. ECL intensity of host 1 with 1 mM guest 2 and 100 mM guest 3.
Figure S8. ECL intensity of host 1 with different concentrations of guest 2.
Figure S9. ECL intensity of host 1 with different concentrations of guest 3.
Figure S10. ECL intensity of host 1 absorbs luminol with different concentrations of guest 2.
Figure S11. ECL intensity of host 1 absorbs luminol with different concentrations of guest 3.
