Supporting Information

Novel ruthenium(II) polypyridyl complexes as G-quadruplex stabilisers and telomerase inhibitors

Guoliang Liao, Xiang Chen, Jingheng Wu, Chen Qian, Hanqiang Wang, Liangnian Ji and Hui Chao*

MOE Key Laboratory of Bioinorganic and Synthetic Chemistry, State Key Laboratory of Optoelectronic Materials and Technologies, School of Chemistry and Chemical Engineering, Sun Yat-Sen University, Guangzhou 510275, P. R. China. E-mail: ceschh@mail.sysu.edu.cn

Supplementary Materials

Figures

Fig. S1  ES-MS spectrum of complex 1 .................................................................S2
Fig. S2  $^1$H NMR spectrum of complex 1 ...........................................................S3
Fig. S3  $^{13}$C NMR spectrum of complex 1 .........................................................S4
Fig. S4  ES-MS spectrum of complex 2 ..............................................................S5
Fig. S5  $^1$H NMR spectrum of complex 2 ..........................................................S6
Fig. S6  $^{13}$C NMR spectrum of complex 2 .........................................................S7
