Figure S1. Consecutive polarization measurements with a platinum rotating disk electrode (A) and with amorphous MoS$_3$ on a rotating glassy carbon disk electrode (B) in 1.0 M H$_2$SO$_4$; 2 mV/s, 4500 rpm.
Figure S2. Polarization curves with a platinum rotating disk electrode (A) and with amorphous MoS$_3$ on a rotating glassy carbon disk electrode (B) before and after the injection of CO$_2$ into the solution (1.0 M H$_2$SO$_4$); 2 mV/s, 4500 rpm.
Figure S3. Consecutive polarization measurements with amorphous MoS$_3$ on a rotating glassy carbon disk electrode in an air saturated 1.0 M H$_2$SO$_4$; 2 mV/s, 4500 rpm.
