Support information

Synthesis of Janus type nucleoside analogues and their preliminary bioactivity

Hao-Zhe Yang, Da-Wei Jiang, Mei-Ying Pan and Yang He*

Institute for Nanobiomedical Technology and Membrane Biology, State Key Laboratory of Biotherapy, West-China Medical School, Sichuan University, Chengdu 610041, China.

Table of contents:
Figure S1: $^1$H NMR spectrum of compound 3a ................................................................. 2
Figure S2: $^{13}$C NMR spectrum of compound 3a ................................................................. 3
Figure S3: $^1$H NMR spectrum of compound 4a ................................................................. 4
Figure S4: $^{13}$C NMR spectrum of compound 4a ................................................................. 5
Figure S5: $^1$H NMR spectrum of compound 5a ................................................................. 6
Figure S6: $^{13}$C NMR spectrum of compound 5a ................................................................. 7
Figure S7: $^1$H NMR spectrum of compound 7a ................................................................. 8
Figure S8: $^{13}$C NMR spectrum of compound 7a ................................................................. 9
Figure S9: $^1$H NMR spectrum of compound 8a ................................................................. 10
Figure S10: $^{13}$C NMR spectrum of compound 8a ............................................................... 11
Figure S11: $^1$H NMR spectrum of compound 1a ................................................................. 12
Figure S12: $^1$H NMR spectrum of compound 3b ................................................................. 13
Figure S13: $^{13}$C NMR spectrum of compound 3b ............................................................... 14
Figure S14: $^1$H NMR spectrum of compound 4b ................................................................. 15
Figure S15: $^{13}$C NMR spectrum of compound 4b ............................................................... 16
Figure S16: $^1$H NMR spectrum of compound 7b ................................................................. 17
Figure S17: $^{13}$C NMR spectrum of compound 7b ................................................................. 18
Figure S18: $^1$H NMR spectrum of compound 8b ................................................................. 19
Figure S19: $^{13}$C NMR spectrum of compound 8b ................................................................. 20
Figure S20: $^1$H NMR spectrum of compound 1b ................................................................. 21
