Analogues of Uracil Nucleosides with Intrinsic Fluorescence (NIF-analogues).

Synthesis and Photophysical Properties

Meirav Segal§ and Bilha Fischer*§

Supporting Information

Carbon and Proton NMR, and absorption and emission spectra of reported compounds 5 - 8

Table of Contents

Compound 5a---------------------------------------------2-4
Compound 5b---------------------------------------------5-6
Compound 5c---------------------------------------------7-9
Compound 5d---------------------------------------------10-12
Compound 5e---------------------------------------------13-15
Compound 6a---------------------------------------------16-18
Compound 6b---------------------------------------------19-20
Compound 6c---------------------------------------------21-22
Compound 6d---------------------------------------------23-25
Compound 7a---------------------------------------------25-28
Compound 7b---------------------------------------------29-31
Compound 7c---------------------------------------------32-34
Compound 8---------------------------------------------35-36
