A rhodamine derivative as a highly sensitive chemosensor for Iron(III)

Kaitian Wu, Hongde Xiao, Lele Wang, Gui Yin, Yiwu Quan, and Ruiyong Wang

Supporting Information

\(^1\)H NMR of compound b in DMSO-\(d_6\). .................................................................2
\(^1\)H NMR of compound P1 in DMSO-\(d_6\). .................................................................3
\(^1\)C NMR of compound P1 in DMSO-\(d_6\). .................................................................4
ESI-MS data (positive mode) of compound b. ...............................................................5
ESI-MS data (positive mode) of compound P1 in the absence of Fe\(^{3+}\). ...............6
ESI-MS data (positive mode) of compound P1 in the presence of Fe\(^{3+}\). ...............7
IR spectra of compound P1 and P1+Fe\(^{3+}\) in KBr disk .............................................8
Fig S1. $^1$H NMR of compound b in DMSO-$d_6$. 
Fig S2. $^1$H NMR of compound P1 in DMSO-d$_6$.
