

RSC LOCAL SECTION SOUTH WALES WEST

South Wales and West Local Section Lecture Programme

Next Event – March 20th 2024, 13:00

Our next event will be taking place on Swansea University's Bay Campus. The speaker at this event is Dr Russ Wakeham, CEO of Two Drifters Distillery and a former colleague of Swansea University. His talk will focus on his journey from academia to his commercial success in developing a carbon negative rum brand. This will be particularly fascinating for those with interests in sustainable development and carbon neutrality.

**TWO
DRIFTERS**
CARBON NEGATIVE RUM

Venue: ESRI 001, Swansea University Bay Campus

Time: 13:00

We also intend to hold a social event following this talk in order to foster networking between members and non-members.

Recent events

We recently held a successful event at the new **Penderyn** site near Swansea's Copper Quarter, which was also supported by **Hyppo Hydrogen** in the provision of carbon neutral transportation via hydrogen powered fuel cell cars. This was well attended, with approximately 28 members of the local section present for a master-class in whiskey production and a tasting session.

Upcoming events

RSC Awards Lectures

12th April – **Bhavik Patel**

2023 Analytical Science mid-career Prize
Time & Location TBD

31st May – **Thuc-Quyen Nguyen**

2023 Materials Chemistry open Prize: de Gennes Prize Winner
Time & Location TBD
