

TOXICOLOGY GROUP – Presentation of the 2015 Toxicology Award

Supported by the Environment, Sustainability and Energy Division

Nanomaterial toxicology – finding the best way forward

To be held in the Library, Royal Society of Chemistry, Piccadilly, London W1J 0BA

19 April 2016

This meeting is to celebrate the latest RSC Toxicology Award. Professor Vicki Stone (Heriot-Watt University) will be presented with the 2015 RSC Toxicology Award and will deliver a Keynote lecture on 'Nanomaterial toxicology – finding the best way forward'. She will be supported in her theme by presentations from a number of colleagues working in the nanotoxicology arena.

On-line registration (£30 for RSC members, £15 student or retired RSC members, £50 non-members) is available at:

<http://www.rsc.org/events/detail/21292/nanotoxicology-rsc-toxicology-award-seminar>

Outline programme:

12.00 – 13.00	Lunch & registration	
13.00 – 13.05	Welcome	Kate Jones
13.05 – 13.15	Toxicology Award 2015 Presentation	
13.15 – 14.15	Keynote: Nanomaterial toxicology – finding the best way forward	Vicki Stone
14.15 – 14.50	Predictive 3D lung models for inhalation toxicology - where are we and where should we go?	Barbara Rothen-Rutishauser
14.50 – 15.15	Tea	
15.15 – 15.50	Gut-on-a-chip models for risk assessment of nanomaterials	Hans Bouwmeester
15.50 – 16.25	Novel nanotechnologies for antiretroviral drug delivery	Andrew Owen
16.25 – 17.00	Ecotoxicology of nanomaterials	Teresa Fernandes
17.00 – 18.00	Drinks reception	

Toxicology Award 2015 Winner

Professor Vicki Stone

Heriot-Watt University

Awarded for pioneering transdisciplinary approaches to assessing the safety of nanomaterials.
