We are pleased to announce **XIX International Conference on Chemical Reactors "CHEMREACTOR-19"** to be held on September 5-9, 2010 in Vienna, Austria

EFCE conference

The International Conference on Chemical Reactors CHEMREACTOR provides a forum for presentations and debate on the latest advances in theory and practice of chemical technology. The conference continues a series of meetings that are held biennially. The last CHEMREACTOR conference took place at Malta in 2008. Chemreactor-19 is traditionally devoted to the fundamental aspects and practical application of the catalytic processes and chemical reactors, as well as to the development of the novel modern technologies.

It is our pleasure to announce that the Organizing Committee has launched a continual Honorary Plenary Lecture dedicated to Professor Mikhail Slin'ko, a CHEMREACTOR-conference founder, who passed away in 2008
