

# The Romark Medicinal Chemistry Symposium Featuring the BMCS Lectureship

*Department of Chemistry, University of Liverpool,  
Monday May 15<sup>th</sup>, 2017*

## Programme

- 12:00 Arrival, registration and lunch
- 13:00 **Dr. Gemma Nixon**, University of Liverpool - *'Heterocyclic Quinolones – privileged pharmacophore targeting both Mycobacterium tuberculosis and Malaria'*
- 13:30 **Prof. Colin Fishwick**, University of Leeds - *'Structure guided design in the discovery of antimicrobials'*
- 14:15 **Dr. Andrew Stachulski**, University of Liverpool - *'Medicinal Chemistry of the Thiazolides'*
- 14:45 Tea and coffee
- 15:30 **Dr. Jean-Francois Rossignol**, Romark Laboratories - *'Antimicrobial Mechanisms of Actions of Thiazolides'*
- 16:00 **The BMCS Lectureship** \*\* - Professor Stuart Conway, University of Oxford - *'Targeting epigenetic reader domains using medicinal chemistry and chemical biology'*

To attend this free event, please register via:

[The Romark Medicinal Chemistry Symposium featuring the BMCS Lectureship](#)

\*\*The BMCS Lectureship trophy and certificate will be presented to Professor Conway before the lecture\*\*
