

GENERAL LETTER RECOMMENDING INVERNESS MEETING

From : Dr Arnold Fogg, member of EASSG committee, living in Aberdeen.

Electrochemistry and Health

Organised by

The Electroanalytical Sensing Systems Group (EASSG) of the Analytical Division

Royal Society of Chemistry

Sponsored by LifeScan Scotland Ltd and Centre for Health Science Company

Thurs 11th /Fri 12th October 2012

Centre for Health Science, Old Perth Road, Inverness IV2 3JH

May I recommend this meeting to you for the range of lectures by leading UK electrochemical sensor specialists, and for the possibility of visiting the exciting new Centre for Health Science in Inverness. A copy of the programme is ATTACHED, and links to it are given below.

Further links give information on the Centre for Health Science, including the range of teaching, training and research units based there.

The programme will be of interest to researchers working in electrochemistry, biochemistry, medicine, and related fields. Contact Professor Brian Birch (Emeritus Professor, University of Bedfordshire, and formerly with Unilever's sensor group) for further details. (b-birch@sky.com).
