

# PRINCIPLES AND PRACTICE OF COSMETIC SCIENCE

PROGRAMME AND REGISTRATION FORM

ONE WEEK INTENSIVE RESIDENTIAL COURSE  
**Sunday 9 March to Friday 14 March 2014**

Village Hotel Bournemouth, Wessex Fields, Deansleigh Road  
Bournemouth, BH7 7DZ, UK

## MAKING COSMETIC SCIENCE WORK

*The Society of Cosmetic Scientists has been the leading authority in the organisation and carrying out of scientific educational programmes in the many fields of cosmetic science and at all levels.*

*The most prestigious of these is the week long residential Principles & Practice Course in Cosmetic Science, which has been in existence for over 40 years. The course has been constantly updated to maintain its pre-eminent position. It is renowned worldwide as an arduous but rewarding immersion in cosmetic science and participation in group projects.*

*Concerning the product development exercise:  
"Superb - really brought the learning to life."*

Delegate Feedback: PPCS 2010

The course is particularly suitable for scientists who have been working in the Cosmetics Industry and the allied supply and support industries for a few years and are looking to move in to more managerial or supervisory roles, primarily, but not exclusively, in the scientific functions. It is also suitable for the more mature manager requiring updated information on the technologies associated with the development of personal care products or sudden and speedy immersion into a new field of expertise. The minimum educational requirement for the course is degree-level, preferably in a science subject, although other qualifications/experience may be considered.

With the requirements of all types of participants firmly borne in mind, the course consists of a wide range of formal lectures, with ample time for question and answer sessions. These lectures are given by eminent practising cosmetic scientists and academics, many of who are recognised internationally within the industry as experts in their field.

The course members also participate in a challenging product development exercise. The exercise is carried out by competitive groups of students, is computer controlled and designed to encourage the practical application of the science and formulation principles covered by the lectures. The lectures on any given day will provide information relevant to the evening's work on the exercise. Additionally, some relevant managerial skills will also be provided, such as, team working and project management. The objective is to maximise the learning

experience of the participants. The exercise, which takes place in the evenings during the whole week, comes to a climax in the form of presentations given by each group to guest judges playing the roles of “*Managing Director*” and “*Marketing Director*”.

Competitive groups of the course participants are also given a practical ‘hands-on’ opportunity to compound a perfume following their theoretical session on perfumery.

The fees for the course are inclusive of all meals and overnight accommodation. The course commences on Sunday afternoon with an Inaugural Lecture by the Course Administrators at 15.00 hours. It concludes at 13.00 on Friday. Lunch and overnight accommodation on Friday can be provided as optional extras.

### Cancellation/Substitution Policy

Cancellation of a confirmed Registration is required in writing to the Society's Office. Fees will be refunded according to the date of receipt of this written cancellation by the office as follows:-

21 days or less - no refund

22 days or more - 75% refund

No charge will be made for substitution of a delegate if they are either members or non-members. No refund will be made for a member attending in place of a non-member but the Society will require payment of an additional fee if a non-member attends in place of a member.

Attendance is restricted to 40 students.

*The PPCS course is a great fast track introduction to the industry. The quality of speakers is superb and the variety of backgrounds of the attendees shows the wide appeal of the course whilst providing great networking opportunities. When combined with the DLC, it gives an excellent representation of the cosmetics industry not only for the new, but also for those who want to broaden their knowledge.*

## LIST OF LECTURES

- 1. PROJECT MANAGEMENT & WORKING IN TEAMS**  
Susan Hurst (MiDAS)
- 2. LEGISLATION**  
Dr Emma Meredith (CTPA)
- 3. PRODUCT ADVERTISING AND CLAIM SUPPORT**  
Steve Barton (Skin Thinking)
- 4. PRODUCT DEVELOPMENT**  
Dr Ged O'Shea (Alliance Boots)
- 5. BASIC SURFACE & COLLOID SCIENCE**  
Dr Kevan Hatchman (Solvay Novecare)
- 6. PRESERVATION IN A MANUFACTURING ENVIRONMENT**  
Clare Clark (Schülke & Mayr UK Ltd)
- 7. SKIN & SKIN CARE PRODUCTS**  
John Woodruff (Creative Developments)
- 8. PROCESSING**  
John Tainton (Project Manager)
- 9. SAFETY**  
John Hopkins (Innovant Research)
- 10. PACKAGING**  
Anne Emblem (London College of Fashion)
- 11. QUALITY/GMP**  
Neil Jarvis (The Body Shop International PLC)
- 12. RHEOLOGY**  
Steve Goodyer (Anton Paar Ltd)
- 13. HAIR & HAIR PRODUCTS**  
Dr Bob Hefford (Independent Cosmetic Advice Ltd)
- 14. ASPECTS OF COLOUR IN COSMETIC SCIENCE**  
Pauline Ayres (Azelis)
- 15. NATURALS**  
Dr Barbara Brockway (IMCD UK)
- 16. PERFUMERY**  
James Glucksam and Lucie Meissonier (Mane Ltd)

*The course was very well put together  
and I feel I have gained a lot from attending.*

## Principles & Practice of Cosmetic Science

### Value for money!

- It is an internationally acclaimed course, which has been serving the Cosmetics Industry for over 40 years!
- It involves over 25 hours of lectures from 16 expert lecturers with a combined experience in the industry or academia estimated to be over 400 years!
- It provides the latest know how on the most relevant topics in Cosmetic Science!
- It includes an exclusive, hands-on perfumery exercise involving a highly experienced perfumer!
- It would certainly not be complete without the unique computer-based product development exercise lasting more than twenty sweat-soaked, adrenalin-pumping hours!
- The course content is effectively linked to the product development exercise to maximise the learning experience!
- Over the years, a process of continuous improvement has been in place, using feedback from the delegates & lecturers, so the course has kept pace with changes within the Industry.
- The fees include the excellent hotel accommodation & all meals for a week, as well as regular refreshment breaks, just when they are needed!
- The course is being held at the Village Hotel in Bournemouth. It has great facilities. Details can be found on: [www.village-hotels.co.uk](http://www.village-hotels.co.uk)

*Extremely informative for someone new to product development.*
