

Sponsorship and Exhibition Opportunities

The conference Polymers: Design, Function and Application will be held from 22 – 23 March 2018 at the Faculty of Chemistry, University of Barcelona in Barcelona, Spain.

About the Conference

It is our sincere pleasure and great honor to announce the first international PDFA conference on Polymers: Design, Function and Application, organized by the MDPI open-access journal *Polymers*. The inaugural conference will be held as a two-day event in Barcelona, Spain, March 22-23, 2018.

We cordially invite researchers from both academia as well as industry, to join this polymer conference and to present cutting-edge research at the interface of design/function or function/application of polymers as a lecture or a poster. With its focus on function- and application-driven polymer research, the conference aims to address the development and testing of the next generation of polymeric materials with previously unrivaled properties for advanced applications. In order to stimulate research activities in these fields, large room for discussions and networking will be reserved in the agenda.

It is our firm belief that this conference will play host to a scientifically inspiring two-day meeting in Barcelona with its exciting history, architecture, and environment. We look forward to meeting you in Barcelona!

Advantages

Sponsoring *Polymers: Design, Function and Application* will give you a unique opportunity to present your company's products and to connect with scholars who are engaged in pioneer research on polymer science and engineering.
