

1 June 2015, Sendai, Japan

# Organic Chemistry Symposium

Royal Society of Chemistry Roadshow

## Programme

10:00 - 10:10	Opening remarks by Kathleen Too (Royal Society of Chemistry)
10:10 - 11:30	Chair: Jeanne Andres
10:10 - 10:50	Total Syntheses of Dihydrooxepine - containing Epidithiodiketopiperazine Natural Products Hidetoshi Tokuyama (Tohoku University)
10:50 - 11:30	Seeking Opportunities for C - H Functionalization Methods in Organic Synthesis Erik Sorensen (Princeton University)
11:30 - 12:30	Lunch
12:30 - 13:50	Chair: Yujiro Hayashi
12:30 - 13:10	Science of Cycloarylenes: Synthesis, Structures and ... Hiroyuki Isobe (Tohoku University)
13:10 - 13:50	Collaborative Approach to C - H Functionalization Huw Davies (Emory University)
13:50 - 14:05	Break

14:05 - 15:55	Chair: Masahiro Terada
14:05 - 15:15	Flash presentations One - Pot Synthesis of $\alpha$ - Amino Acids from CO <sub>2</sub> and Imine Tsuyoshi Mita (Hokkaido University) Double - Helix Formation of an Ethynylhelicene Oligomer with Tri(Ethylene Glycoxy) Termini Induced by Heat Nozomi Saito (Tohoku University) Enzymatic Synthesis of Glycolipid Having Oligosaccharides by Utilizing the Structural Feature of Amylose Atsushi Kobayashi (Nihon University) $\eta^2$ - Dialkylsilylene Palladium and Platinum Complexes Shintaro Ishida (Tohoku University)
15:15 - 15:55	Hydrogen Bonding with a Nonpolar sp <sup>3</sup> - C - H Bond in Enantioselective Cooperative Metal Catalysis Masaya Sawamura (Hokkaido University)
15:55 - 16:10	Break
16:10 - 17:30	Chair: Daping Zhang
16:10 - 16:50	Synthesis of Natural Products Containing Benzannulated Spiroketal Margaret Brimble (University of Auckland)
16:50 - 17:30	Publishing your research in high impact journals Richard Kelly & Hiromitsu Urakami
17:30	Closing remarks Masahiro Terada (Tohoku University)
