

Synthesis and Applications of Labelled Compounds

International Isotope Society, Nineteenth Annual IIS, (UK Group) Symposium

Highly successful October 14th & 15th

Unusually early start; Ybca Y7 Ua di gž< jbl hcbž7 Ua Vg"

TOPICS INCLUDE

- Organic Synthesis Using Carbon-14
- Synthesis with Stable Isotopes
- Novel 18-F PET Synthesis
- New Catalysts for 3-H Labelling
- New Chemical Methods
- Labelled Biopolymers

please complete and return

I will be attending the IIS-UK Group meeting on 14th October 2010
I enclose £75.00 (£35.00 for students) which includes registration and buffet lunch ☐
