

4TH INTERNATIONAL CONGRESS ON CATALYSIS FOR BIOREFINERIES

December 11-15, 2017

Lyon, France

Organizing committee

IRCELYON/Lyon/France

Nadine ESSAYEM

Michèle BESSON

Dorothee LAURENTI

Stéphane LORIDANT

Catherine PINEL

IC2MP/Poitiers

Karine DE OLIVEIRA-VIGIER

François JERÔME

UCCS/Lille

Franck DUMEIGNIL

Sébastien PAUL

Cellule Congrès- University Lyon1

Solange PERREL

Lauriane MOKAS

Topics

- 1) Catalytic routes for direct polysaccharides, lignin, and raw biomass transformation.
- 2) Catalytic transformation of lignocellulosic platform molecules.
- 3) Catalytic transformation of vegetable oils, fats, algae and oleo-derived chemicals.
- 4) Thermochemical transformations of biomass into bio-oils and related catalytic upgrading technologies for bio-oils.
- 5) Modeling aspects of the processes and mechanistic studies.
- 6) Development of analytic tools, in situ characterization techniques.

Venue

Université Lyon 2

Palais Hirsch

18 quai Claude Bernard
Lyon, France
