

The Magic of Metals: Synthetic Reagents and Medicinal Cures.

Thursday 8th November, 2007 14.00-18.30
CS2, Callan Building, NUI Maynooth

Programme

- 14.00-14.05 **Welcome**
- 14.05-14.45 **Dr Malachy McCann, NUI Maynooth**
Microbial & Cancer Drugs With a Silver Lining
- 14.45-15.20 **Dr Patrick O'Leary, NUI Galway**
Applications of a Simple Immobilisation
Technique for Metal Bisoxazolines:
Expanding the Scope of Catalytic Reagents
- 15.20-16.10 **Dr Matthias Tacke, University College Dublin**
Novel Titanocene Anticancer Drugs
- 16.10-16.30 **Coffee**
- 16.30-17.30 **Prof Simon Woodward, University of Nottingham**
The Use of Additives in Selective Synthesis and
Catalysis
- 17.30-18.30 **Wine reception**

To secure a place please contact Dr John Stephens, Chemistry Department, NUI Maynooth
