*For organisations and individuals with an interest in sustainable supply chains and greener products*

1-2 July 2008, King's Manor, York

<http://www.york.ac.uk/res/gcg/gogreen>

The Green Chemistry and the Consumer annual symposia bring together a diverse audience of representatives from consumer product supply chains, academics, NGOs, government, trade associations, media and other stakeholders to learn about green chemistry solutions for sustainable product supply chains.

## Programme of activities

### Masterclass (July 1st)

Training course, organised in collaboration with **Envirowise**, provides an introduction to environmental aspects of product design. It introduces the tools and technologies available for development and assessment of greener products and aims to raise awareness and understanding of the general concepts to help participants make more informed decisions about the utilisation of renewable resources, the potential of sustainable technologies and commercial opportunities. The Masterclass is also associated with online courses which provides more in-depth information and introduce related areas of Green Chemistry. For more information visit the website.

### Exhibition (July 1st)

This is a free evening event open to masterclass or symposium delegates. It will feature a plenary lecture by *Steve Johnson, Sustainable Development Manager, Boots UK Ltd*, as well a "Greener Products" exhibition and wine reception providing an opportunity for networking.

### GC&C Symposium (July 2nd)

The 5<sup>th</sup> symposium, 'Greener Products', will explore recent advances in the field, including case studies on successful methods developed by industry and challenges in practice. The programme will consist of a blend of presentations and breakout sessions; speakers will include:

- *Keith Sugden, Group Director, Carbon 20, Reckitt Benckiser plc*
- *Mary Kate Boggiano, Research Scientist, Green Chemistry, Armstrong Floor Products - Innovation*
- *Henk Vooijs, Area Manager Benelux & UK, Novamont SpA*
- *Jerker Ligthart, Project Coordinator, International Chemical Secretariat*

*If you would be interested in giving a presentation please send us a short paragraph outlining the proposed content of your talk.*

The symposium will conclude with a wine reception providing another opportunity for networking.

## The Venue

The King's Manor in York is a group of medieval buildings that are one of historic York's most attractive sites and served the Tudors and Stuarts as a seat of government
