

# Hansen Solubility Parameters

THE *50th* ANNIVERSARY CONFERENCE

University of York  
*5–7 April 2017*

From the HSPiP Team:  
*Steven Abbott, Charles Hansen,  
Hiroshi Yamamoto*

Hosted by:  
*University of York Green  
Chemistry Centre of Excellence*

UNIVERSITY  
*of York*

Two and a half days of top-quality speakers on the state-of-the-art of HSP in polymers, nanotech, green chemistry, organic electronics, pharma/agrochem, formulation science and beyond, plus a special hands-on tutorial session with *Prof Abbott* on HSPiP and a keynote from *Dr Hiroshi Yamamoto* on the next generation of HSP predictive capacity. Plus *Dr Hansen's* review of how it all started fifty years ago.

This will be an interdisciplinary, international conference for industry, academia and students (at special rates). Talks will be published after the conference on the Hansen Solubility website. There will be time for networking, poster sessions and interaction with corporate

sponsors. There are a wide choice of conference-friendly hotels near the campus or in the city, and those who want to stay a little longer can enjoy the delights of this beautiful cathedral city.

For all information on the conference, accommodation, invited speakers and to submit your own proposal for a conference talk, visit the conference site at [www.hansen-solubility.com/Conference](http://www.hansen-solubility.com/Conference)

*Additional conference support from iFormulate.*
