

# Towards New Therapeutics for Diseases of the Developing World

Sunday 11 - Tuesday 13 May 2014  
GlaxoSmithKline, Tres Cantos, Madrid, Spain

Organised by SCI's Fine Chemicals Group

# Towards New Therapeutics for Diseases of the Developing World

Sunday 11 - Tuesday 13 May 2014, GlaxoSmithKline, Tres Cantos, Madrid, Spain

## Synopsis

Designing drugs to fight diseases that cause high mortality and morbidity amongst the people of the developing world is a global challenge. This meeting will focus on medicinal chemistry approaches to making new medicines, with keynote talks from international experts, accompanied by a series of perspectives detailing case histories in drug discovery. The exciting spread of themes should attract delegates from both industry and academia, highlighting the latest developments in tackling malaria, TB and kinetoplastid diseases.

## Venue

The event is being held at GlaxoSmithKline, Tres Cantos, which is situated approximately one hour by train from Madrid airport and 30 minutes by train from the centre of Madrid.

More information about travel and local hotels can be found on the website.

## Registration

**Early bird rate before 28 March 2014**

SCI Member - £170, Student Member\* - £50, Non-Member - £225

**Standard rate after 28 March 2014**

SCI Member - £205, Student Member\* - £60, Non-Member - £270

\*a limited number of student places are available

## Organising Committee

- Caroline Low, UK
- Liam Cox, University of Birmingham, UK
- Rebecca Butler, Novartis, UK
- Félix Calderon, GlaxoSmithKline, Spain
- Mónica Cacho-Izquierdo, GlaxoSmithKline, Spain
- Maria Marco-Martin, GlaxoSmithKline, Spain

## Posters

Delegates wishing to present a poster are encouraged to submit their application early as numbers are limited. Please send a one page abstract to [conferences@soci.org](mailto:conferences@soci.org) by **Friday 28 March 2014** with 'DDW - poster abstract' in the subject line.

Selected poster presenters will also be given the opportunity to give a short oral presentation.
