

Innovation in Peptide & Protein
Separation Technologies
Quantification of Peptides and Proteins
Molecular Mass Imaging
Single cell imaging
Mass Spectrometric Innovations
Reagents and Standards for Analytical &
Clinical Proteomics
Organelle and Biological Membranes
Proteomics
Computational approaches to mine
proteomic data
Alternative splicing & sample Treatment
Glycoproteomics & Phosphoproteomics
Chemical Proteomics
Proteomics of Macromolecular
Complexes
Array Based Analytical Proteomics
Proteome biology of infectious diseases
Stem cell proteome biology
Biomarkers
Cancer related signaling
Cardiovascular Proteome Biology
Structural Proteomics
Molecular Biology
Metabolomics
Metallomics
Biological Probes
Electrochemistry Applied to Proteins and
Proteomics

18th - 20th July 2011 Ourense, Spain

II International Congress on Analytical Proteomics

<http://sing.ei.uvigo.es/ICAP>
jlcapelom@uvigo.es

*The poster session will be held in a SPA resort
during the morning of the day 19th*
