

## Southampton Supramolecular Chemistry Symposium 2016

Friday 24<sup>th</sup> June 2016  
10:00 - 18:00

*Lecture Theatre A, Avenue Campus  
University of Southampton, Southampton, SO17 1BF*

The Southampton Supramolecular Chemistry Symposium 2016 is focussed on **early career researchers** (PhD and PDRA) working in supramolecular chemistry. This free one-day symposium is a great opportunity for PhDs and postdocs to present their research and network with their peers and leaders within the supramolecular field.

The day will feature talks and posters from PhD students and postdocs working across a broad range of supramolecular topics and a plenary lecture from Professor AP de Silva (Queen's University Belfast).

The symposium is free to attend and will begin at 10.00 on the 24th of June at the University of Southampton and finish at 17.30 with a reception.

We hope you can join us for a fantastic summer's day of supramolecular chemistry!

Register for free (including lunch & refreshments) and submit an abstract for an oral or poster presentation at: **<http://goldup.soton.ac.uk/SouthamptonSupra/>**
