The Conference

The **WaterEnergyNEXUS** is one of the most important and priority issue to be resolved for both current and next generations. The Sanitary Environmental Engineering Division (SEED) of the University of Salerno (Italy) in cooperation with Advanced Institute of Water Industry at Kyungpook National University (Korea) and with The Energy and Resources Institute, TERI (India) is organizing the second Edition of WaterEnergyNEXUS Conference, that will be held in Salerno (Italy) from November 14 to 17 of this year.

This year **WaterEnergyNEXUS** will provide an international platform to share and discuss key topics on such water issues with the presentation of nature-based solutions, advanced technologies and best practices with the support of experts invited as plenary and keynote speakers. An additional aim of WaterEnergyNEXUS in 2018 is to contribute to the overall goal of enhancing cooperation, integration and sustainable development in the Euro-Mediterranean region on critical topics of Water and Energy.

Conference Topics

Topics of interest of the **WaterEnergyNEXUS** conference include, but are not limited to the following aspects:

- Nexus framework and governance;
- Environmental technologies for the sustainable development of the water sector;
- Future clean energy technologies and systems under water constraints;
- Implementation and best practices.
