Chemical Sciences

Organised by SCI's Colloid & Surface Chemistry Group
and the RSC's Colloid & Interface Science Group

programme

- 13:30** SCI's Colloid & Surface Chemistry Group AGM and refreshments
- 14:00** **Cracking in coatings from colloidal dispersions: An industrial perspective**
Martin Murray, AkzoNobel
- 15:00** **Pickering emulsions produced using hydrophilic particles - stability and rheology**
Bill Frith, Unilever
- 15:30** **Self consistent field studies of mixed interfacial polymers and biopolymers in melts and solutions**
Rammille Ettelaie, Leeds University
- 16:00** Refreshments
- 16:30** **Charge in non-aqueous systems**
Paul Bartlett, Bristol University
- 17:00** **What thin-film cracking says about compressional rheology**
Lee White, University of South Australia
- 17:30** **Delayed sedimentation: From formulation to physics and back again**
Alan Parker, Firmenich
- 18:00** Refreshments
- 18:20** **Rideal Lecture: It was gravity which pulled us down...**
Richard Buscall, MSACT Consulting
- 19:05** Close of conference
- 19:10** Conference Dinner at a nearby venue (Ticket holders only)

synopsis

The Rideal lecture is an annual award given by SCI's Colloid and Surface Chemistry Group and the RSC's Colloid and Interface Science Group.

What the meeting will cover

This years' recipient of the award is Professor Richard Buscall, who is well known to most in the colloid community. Richard worked for many years at ICI heading up the colloid research group and specialising in rheology of dispersions. The symposium will feature speakers who have links with Richard's career and will cover a multitude of colloidal areas from gel collapse to cracking of films during drying.

Who should attend

This conference is aimed at anyone interested in colloid science as well as rheologists and formulators, scientists in the agriculture, food, coatings, pharmaceutical and cosmetics industries will also find this conference very informative.

organising committee

Alex Routh, University of Cambridge

information on SCI

SCI is an international, independent charity whose remit is to promote the application of science for the benefit of society.

Established since 1881, SCI works hard to advance and promote scientific knowledge and innovation while acting as a bridge between science and business. It does this by bringing together people from a wide variety of backgrounds including scientists, business people, industrialists, researchers and students from all over the world.

SCI is the publisher of many well respected journals and industry leader Chemistry & Industry magazine (C&I). SCI can offer a network of contacts spanning education, science and business, an in-depth knowledge of chemical related industries together with a rolling programme of conferences, awards and scholarships to help further knowledge and support those involved in the sector no matter what stage of their careers.
