# McBain Medal 2017: Watching Colloids Work

Tuesday 12 December 2017, SCI, London UK

## Synopsis

The McBain medal is awarded annually by the SCI/RSC Joint Colloids Group to recognise a rising star in colloid and interface science. This year's recipient is Dr Rico Tabor from Monash University, Melbourne, for his work on surfactants and responsive colloidal systems. Dr Tabor obtained his PhD from the University of Bristol and his research currently focuses on designing complex systems of particles and surfactants that respond to light, pH, or magnetic fields. This meeting, including a student poster session, will showcase the latest work in colloids that respond to external stimuli, and state-of-the-art techniques to 'watch them work', with applications such as smart water treatment and functional foods.

## Programme

- ▶ **09.30** Registration and refreshments
- ▶ **10.15** **Dr Sarah Rogers**, Rutherford Appleton Laboratory, STFC, UK
