The Rideal lecture is an annual award given by SCI's Colloid and Surface Chemistry Group and the RSC's Colloid and Interface Science Group.

Colloid science principles have been successfully applied in a wide range of industries involving manufacture, processing and formulating many materials as aqueous dispersions.

This symposium aims to bring together a group of colloid scientists all of whom have played leading roles in understanding the nature and properties of fluid-fluid interfaces and such formed between aqueous solutions and both hydrophilic and hydrophobic materials of all kinds by using neutrons.

Attendees

This conference is aimed at anyone interested in colloid science as well as rheologists and formulators, scientists in the agriculture, food, coatings, pharmaceutical and cosmetics industries will also find this conference very informative.

Posters

A poster session is planned for this event. Since numbers are limited, interested delegates are strongly encouraged to submit their application as early as possible. Please send a one-page abstract to conferences@soci.org by **Friday 25 February 2011**.

Bursaries

SCI and RSC are pleased to offer complimentary registration to SCI and RSC member students. To apply for a student bursary, please tick the appropriate box on the registration form overleaf. Bursaries will be allocated on a first come, first served basis.
