

# Inorganic Chemistry Symposium

**Wednesday 26 October**  
**Osaka University**

10:00	<b>Opening remarks</b> Hiromitsu Urakami, Royal Society of Chemistry
	<b>Session Chair:</b> Seth M. Cohen
10:10	<b>Architectural control of f-block organometallics for small molecule</b> Polly Arnold <i>University of Edinburgh, UK</i>
10:50	<b>Unique properties of azaphenylene-based coordination materials</b> Yumi Yakiyama <i>Osaka University, Japan</i>
11:10	<b>Transition-metal-catalyzed direct aromatic coupling</b> Masahiro Miura <i>Osaka University, Japan</i>
11:50	Lunch
	<b>Session Chair:</b> Polly Arnold
13:00	<b>Artificial photosynthetic systems for chemical transformation</b> Li-Zhu Wu <i>Chinese Academy of Science, China</i>
13:40	<b>Molecular catalysts designed for water oxidation</b> Shigeyuki Masaoka <i>Institute of Molecular Science, Japan</i>
14:00	<b>NO dynamics in biology: its generation and decomposition</b> Yoshitsugu Shiro <i>RIKEN, Japan</i>
14:40	Coffee break
	<b>Session Chair:</b> Li-Zhu Wu
15:00	<b>Where the rubber meets the road - polyMOFs</b> Seth M. Cohen <i>University of California, San Diego, USA</i>
15:40	<b>Polymer chemistry in MOFs</b> Takashi Uemura <i>Kyoto University, Japan</i>
16:00	<b>Elements strategy for new nano-materials</b> Hiroshi Kitagawa <i>Kyoto University, Japan</i>
16:40	Coffee Break
	<b>Session Chair:</b> Hiromitsu Urakami
16:50	<b>Publishing your research in high impact journals</b> Andrew Shore <i>Royal Society of Chemistry, UK</i>
17:20	<b>Closing Remarks</b> Shinobu Itoh <i>Osaka University, Japan</i>
