Programme

09:00 Registration and refreshments

Session Chair: Prof Simon Ward, University of Sussex

09:30 **Opening remarks**

09:35 **Identification of orally bioavailable type 2 inhibitors of discoidin domain-containing receptor 1/2 (DDR1/DDR2) using "back-to-front" X-ray FBDD**
Emiliano Tamanini, Astex Therapeutics

10:15 **Drug discovery towards the eradication of malaria**

Paul Willis, Medicines for Malaria Venture

10:55 **Exploring water networks to predict binding affinity and selectivity**

Daniel D Robinson, Schrödinger

11:15 Refreshments

11:35 **URAT-1 solute carrier inhibitor program for the treatment of gout**

Ian Storer, Pfizer

12:15 **The discovery of potent brain penetrant BACE inhibitors**

Fionna Martin, Lilly

12:55 Lunch

Session Chair: Dr Véronique Birault, GlaxoSmithKline

13:55 **The monster mas agonist – revealing the beauty in the beast**

Simon Peace, GlaxoSmithKline

14:15 **The discovery of therapeutics for neglected diseases and the translation of novel biology through small molecule drug discovery**

Andrew Woodland, Drug Discovery Unit, University of Dundee

14:35 **A softdrug approach to PDE4 inhibitors for the topical treatment of skin diseases**

Nuria Aguilar, Almirall

14:55 **The European Lead Factory: a pan-European approach to access new chemical space for drug discovery**

Adam Nelson, University of Leeds

15:15 Refreshments

15:35 **Novel 5-HT₇ antagonists, with an unprecedented selectivity profile, for the treatment of migraine**
