

DEPARTMENT OF
CHEMISTRY

**A Symposium to mark the 75th Birthday
of Jonathan R. Dilworth**

2 August 2019

*An afternoon of talks from a few of Jon's friends, colleagues
and collaborators*

**In conjunction with the
Royal Society of Chemistry
Radiochemistry Group**

Advances in Theranostics

**Inorganic Chemistry Laboratory, South Parks Road,
Oxford, OX1 3QR**

All welcome

Programme

13.30	Registration and Refreshments, ICL Lecture Theatre Foyer
14.00	Welcome, Professor Stephen Faulkner, Head of Inorganic Chemistry
<i>Chair: Professor Stephen Faulkner</i>	
14.10	Radiometal Chemistry: From Bench to the Patient Professor Jason Lewis, Memorial Sloan Kettering Cancer Centre, NY, USA
14.50	Behaviour of Supramolecular Assemblies of Radiolabelled and/or Fluorescent Metal Complexes In Vitro and In Vivo Professor Sofia Pascu, University of Bath, UK
15.30	Refreshments
<i>Chair: Dr Rebekka Hueting</i>	
15.50	Radiochemistry in a Flash Professor Jason Holland, University of Zurich, Switzerland
16.30	Cu(atSm) as a potential therapeutic of neurodegenerative diseases and copper complexes as theranostics Professor Paul Donnelly, University of Melbourne, Australia
17.10	Nuclear Medicine in IYPT: fun for all the inorganic chemistry family Professor Philip Blower, Kings College, London, UK
17.50	Close
18.00	Refreshments in the Abbot's Kitchen, ICL

Reception:

Inorganic Chemistry Laboratory
South Parks Road
Oxford
