

A Little Light Entertainment

with Dr Andrew Beeby, Durham University

Come and see a selection of mesmerising demonstrations of spectroscopy and luminescence with every day applications. With enough awe for all the family and enough science for the chemist inside!

This is also an opportunity to see "Spectroscopy in a Suitcase" – an RSC funded outreach project, launched from Durham, that allows schools to use up to date equipment free of charge to support key stage 3, 4 and 5 teaching.

When: Monday 7th February 2010

Time: 19.30 – 20.30, with refreshments available from 19.00

Free entry, open to public

To register interest contact Sarah Beard on 019467 80334 or sarah.m.beard@sellafieldsites.com
