

Physical Chemistry of Functionalised Biomedical Nanoparticles

Faraday Discussion 175

17-19 September 2014
Bristol, UK

A large, abstract graphic on the right side of the page. It features a circular inset containing a green-tinted microscopic image of what appears to be a cluster of nanoparticles or a biological structure. This central image is surrounded by several concentric, overlapping rings in shades of green and yellow, creating a layered, circular effect.

Themes

Magnetic nanoparticles 1:
diagnostics

Magnetic nanoparticles 2:
therapeutics

Optical nanoparticles

Other nanoparticles

Speakers

Paul Alivisatos

Lawrence Berkeley National Laboratory

Kerry Chester

UCL Cancer Institute

Peter Dobson

University of Oxford

Mostafa El-Sayed

Georgia Institute of Technology

Hedi Mattoussi

Florida State University

Paul O'Brien

University of Manchester

Ivan Parkin

University College London

Christian Plank

Technische Universität München

Oliver Reiser

Universität Regensburg

Edman Tsang

University of Oxford

Key deadlines

Poster abstract submission

30 June 2014

Early bird registration

21 July 2014

Standard registration

18 August 2014
