

# The Science behind CO<sub>2</sub> Capture and Conversion

## Last Call for Abstracts

**24th -28th June 2015, Varadero Matanzas, Cuba**

This is the **last call** for your chance to submit abstracts for to be presented at the 2015 **Science behind CO<sub>2</sub> Capture and Conversion** being held in Varadero, Cuba 24th -28th June 2015

Submit your abstract via email to: [CO2Cuba2015@ucl.ac.uk](mailto:CO2Cuba2015@ucl.ac.uk)

Conference themes cover **Capture, Catalytic Conversion, Mineral Sequestration, From Science to Application and Policy and Environmental**. Invited speakers include:

Prof. Derek Sinclair	University of Sheffield, UK
Prof. Nora de Leeuw	Cardiff University, UK
Prof. Chris Hardacre	Queen's University Belfast, UK
Prof. Graham Hutchings	Cardiff University, UK
Prof. Marc Robert	University of Paris Diderot, France
Dr Alberto Roldan	University College London, UK
Prof. Thomas Müller	Catalytic Center RWTH Aachen University Germany
Dr Atsushi Urakawa	Institute of Chemical Research of Catalonia (ICIQ), Spain
Prof. Umesh Waghmare	JNCASR, Bangalore, India
Prof Charlotte Williams	Imperial College London, UK
Prof. Luis Montero-Cabrera	University of Havana, Cuba
Prof. Richard Catlow	University College London, UK
Dr Evgeny Pidko	Eindhoven University of Technology, NL

The Conference is being hosted at the beautiful all inclusive **Blau Marina Resort** in Varadero. Including a Pool side Barbeque, and unique trip into Cuba as well as the excellent scientific program

Further information, registration abstract templates and application process, may be found [here](#).
