

## The 2<sup>nd</sup> Romark Medicinal Chemistry Symposium Featuring the BMCS Lectureship

*Department of Chemistry, University of Liverpool,  
Monday March 19<sup>th</sup>, 2018*

### Programme

12:00 - Arrival, registration and lunch

13:00 - **Dr. David Hong**, University of Liverpool - *'A·WOL Discovery - in quest of safe macrofilaricidal drugs'*

13:30 - **Prof. Ed Tate**, Imperial College, London – *'From malaria to the common cold: targeting protein lipidation using chemical biology'*

14:15 - **Prof. John Spencer**, University of Sussex - *'Small Molecule Designer Libraries for Cancer'*

14:45 - Tea and coffee

15:30 - **The BMCS Lectureship** \*\* - Dr Jamie Scott, AstraZeneca - *'Medicinal Chemistry, Macrocycles and MTH1'*

16:30 - **Dr. Tim Schulz-Utermoehl**, Sygnature Discovery - *'Understanding and predicting brain penetration for CNS-targeted drugs'*

17:00 – Closing remarks
