

European Biomarker Symposium

Fit-For-Purpose Biomarkers: The Rules Are Changing

2, 3 September, 2010 | Oriel College | University of Oxford, UK

At the European Biomarker Symposium, taking place on the beautiful, historic campus of the University of Oxford, attendees will learn about cutting-edge biomarker research, and participate in a valuable exchange of knowledge and experience. Over two days, attendees will have access to multiple sessions, each of which will include topical speakers and a panel discussion.

Program Chair:

Ron Bowsher, Ph.D.
Chief Scientist,
BioPharma Services
Millipore Corporation

An array of knowledgeable speakers covering the topics listed below include:

Thomas Joos, PhD
Natural & Medical Science Institute
University of Tübingen, Germany

Prof. Jens Pahnke, MD, PhD
Neurological Clinic, NRL, NML
University of Rostock, Germany

Topical Agenda:

- Session 1:** Drug Discovery, Screening and Identification of Biomarkers
- Session 2:** Assay Validation and Regulatory Expectations
- Session 3:** Clinical Development
- Session 4:** Companion Diagnostics / Theragnostics
