

RSC Biomaterials Chemistry Special Interest Group

The RSC Biomaterials Chemistry Special Interest Group was set up in 2005 to provide a focus for groups in UK universities and industry working on the synthesis and characterisation of biomaterials. The group aims to enhance the understanding of the chemistries underlying the use of biomaterials in applications including prostheses, drug delivery and regenerative medicine.

RSC Biomaterials Chemistry Special Interest Group Annual Meetings

Annual meetings of the group are designed to promote biomaterials chemistry research and development, enhance existing links, foster new collaborations and spread expertise. Meetings give participants the opportunity to present new work, discuss data and help to shape the future of research in this important and vibrant area of chemistry.

Abstract submission

Abstracts for oral (10 min + 5 min questions) and poster presentations (pre-recorded 3 min flash presentations) will be accepted.

Abstract submission deadline:
6th Dec 2020

Registration deadline:
5th Jan 2020

For registration and abstract submission via please visit the RSC website:

<https://www.rsc.org/events/detail/45611/rsc-biomaterials-chemistry-group-annual-meeting>

RSC Biomaterials Chemistry Group

15th Annual Meeting

January 11 - 12, 2021

Virtual Conference

Free Registration

Hosted by

The University of Nottingham

University of
Nottingham
UK | CHINA | MALAYSIA

Invited Speakers

Prof João Mano
University of Aveiro

Chemical modification strategies for adding performance of natural-based polymers for biomedical applications

Dr Helena Azevedo
Queen Mary University of London

Exploiting complementary peptide-polymer self-assembling networks to develop versatile biomaterials

Prof Tanniemola Liverpool
University of Bristol

Non-equilibrium steady states in soft active motile matter

Prof Annette Taylor
University of Sheffield

Bacteria-inspired active materials and sensors

Local conference committee:

Mischa Zelzer (Chair)
Alvaro Mata
Rebeca Obenza Otero
