Circular

The 11th Joint Meeting on Heterocyclic Chemistry will be held under the auspices of the Divisione di Chimica Organica della Società Chimica Italiana and of the Heterocyclic and Synthesis Group of the Royal Society of Chemistry.

Date and Location

The Meeting (www.soc.chim.it/divisioni/chimorg/convegni) will be held at Villa Marigola (<http://www.villamarigola.com>) in Lerici, from Thursday 8th May (afternoon) to Sunday 11th May 2008.

Lerici (<http://www.rivieradellaliguria.com/en/golfodeipoeti.html>) is a picturesque town in the heart of Riviera di Levante (Liguria), which is world famous for its gulf (Golfo dei Poeti), loved by Shelley and Byron. Its restaurants are quite famous and give excellent samples of the typical “cucina ligure”, a combination of both seafood and meat, a natural union of the products which prevail in the region. Villa Marigola is situated just a short walk from the centre of Lerici and is located in the green of an age-old tree park. Lerici is near the Cinque Terre, famous worldwide for the splendid walks in very attractive scenery (<http://www.rivieradellaliguria.com/en/cinqueterre.html>).
