Liquid Salts for Energy and Materials

11-13 May 2016, University of Nottingham, Ningbo, China

Liquid Salts for Energy and Materials is a Faraday Discussion meeting where internationally renowned scientists will discuss the status of the field and latest developments in topics such as:

- Benefits to energy efficiency and environmental impact
- Improvements of energy conversion and storage
- Developments for nuclear reactors and spent fuels processing
- Advancement in knowledge of phenomena and processes

Top international speakers include Derek Fray (University of Cambridge) and John Irvine (St Andrews University)
