

## **Young and Early Career Researchers' Meeting**

**Wednesday, January 13<sup>th</sup> 2010, 11 am - 5 pm  
Department of Chemistry, Durham University**

***The RSC Photochemistry Group promotes interest in all aspects of photochemistry, including:***

- excited state kinetics, in solution and in the gas phase
- synthetic chemistry - dyes, light-emitting compounds, fluorescent sensors, etc.
- photonics and solar energy conversion
- photocatalysis
- instrumentation.

The **Young and Early Career Researchers' Meeting** will provide an opportunity for postgraduate students, post-doctoral researchers and their supervisors to meet others working in the field, and to present their work in the form of a poster or oral presentation.

Abstracts are invited on research which falls within the areas of interest of the group. A number of abstracts will be selected for short oral presentation, whilst a poster session will form a major part of the meeting.

The meeting will open and close with **keynote lectures** by:

***Professor James Durrant***

***Imperial College London***

***Professor Hugh Burrows***

***University of Coimbra, Portugal***

**Registration fees:** Students £20      RSC Members £35      Non-members £50

Registration covers lunch, refreshment breaks and book of abstracts.

**Venue: Durham University Chemistry Department**

- close to Durham railway station on the East Coast mainline
- within 1 h of Newcastle airport and Durham Tees Valley airport

**Deadline for abstract submission: Friday, December 18<sup>th</sup> 2009**

A registration form is attached and is also available at: <http://www.dur.ac.uk/j.a.g.williams/RSCphotochem.htm>  
Abstracts should be prepared using the template provided at the above website, and submitted electronically to:  
[j.a.g.williams@durham.ac.uk](mailto:j.a.g.williams@durham.ac.uk)

*Organising committee:* R.G. Brown, J. Byrne, J.I. Bruce, P. Douglas, G. Grantham, J.A.G. Williams, D.R. Worrall.
