

Young Researchers' Meeting

**Thursday, December 6th 2007, 11 am - 5 pm
Hazlerigg Building, Loughborough University**

The RSC Photochemistry Group promotes interest in all aspects of photochemistry, including:

- excited state kinetics, in solution and in the gas phase
- synthetic chemistry - dyes, light-emitting compounds, fluorescent sensors, etc.
- photonics and solar energy conversion
- photocatalysis
- instrumentation.

The **Young Researchers' Meeting** will provide an opportunity for postgraduate students, post-doctoral researchers and their supervisors to meet others working in the field, and to present their work in the form of a poster or oral presentation.

Abstracts are invited on research which falls within the areas of interest of the group. A number of abstracts will be selected for short oral presentation, whilst a poster session will form a major part of the meeting.

The meeting will open and close with **keynote lectures** by:

Professor Sir Richard Friend FRS

University of Cambridge & CDT

Professor Robin Perutz

University of York

Registration fees: Students £25 RSC Members £40 Non-members £55

Registration covers lunch, refreshment breaks and book of abstracts.

Venue: Loughborough University campus

- close to Loughborough mainline railway station
- only a few miles from East Midlands Airport
with excellent connections to Scotland, Ireland, and mainland Europe.

Deadline for abstract submission: November 9th 2007

Abstracts (max. one page A4), should be submitted electronically to j.a.g.williams@durham.ac.uk
A registration form is attached and also available at: <http://www.dur.ac.uk/j.a.g.williams/RSCphotochem.htm>

Organising committee: R.G. Brown, J. Byrne, J.I. Bruce, P. Douglas, G. Grantham, J.A.G. Williams, D.R. Worrall.
