

**Young Researchers Meeting
(YRM)** Department of Chemistry,
University of Cambridge
Cambridge, CB2 1EW

Macro Group is committed to holding meetings to develop the UK polymer science community. This very important meeting allows younger researchers from all areas of polymer science to mix and learn, and, in some cases, give their first external oral or poster presentations. With support our sponsors, we are holding the YRM and overnight social gathering at the University of Cambridge in September and we would like to encourage representation from all polymer science groups across the UK.

There will be three keynote lectures from established polymer scientists as well as presentations from Younger Members of Macro Group. Posters are also highly encouraged, and these will form the focus of the coffee and lunch breaks. **Please submit a title on registration.**

Prices have been kept low to support maximum attendance by younger members, so please support this event and also join Macro Group – details are below.
