

International Solvothermal & Hydrothermal Association Conference 2008

The conference will be held at
The University of Nottingham
Nottingham, UK.
8-10th September 2008
www.isha2008.org

Subject Themes

Origin of Life
Composites, Clays and Minerals
Biomaterials and Bio-Applications
Nanomaterials
Formulation Technology
Process Engineering Developments
Supercritical Science
Green Technologies
Commercial Applications – lab to pilot scale

Hydrothermal and Solvothermal Crystal Growth,
Synthesis of Functional Materials
Phase equilibria
Experimental Mineralogy
Hydrothermal and Solvothermal Technology for Treatment and Recycling.

There will be three plenary lectures, covering the broad subject base of hydrothermal and solvothermal researchers and industry. Over 200 delegates are expected to attend from all over the world.

The conference will also include an open forum for the international community to list its needs and goals for the short, medium and long term future.

There will also be time dedicated to promoting networking for individuals and research groups.

There will be opportunity to publish papers in a special issue of a relevant high profile journal.

Costs

The cost of the conference will be £300 (GBP) and £150 (GBP) for students. The conference organisers will also host a banquet at which delegates can try their hand at archery and watch a jousting tournament.

Email contact: Edward.Lester@nottingham.ac.uk

Deadline for submission of abstracts 15th May 2008. See website for updates.
