

Target Discovery using Chemical Probes

Symposium, 21-23 March 2018, Oxford

Topics: Activity-based Protein Profiling (ABPP); Photoaffinity labelling; Bio-orthogonal chemistry; Chemical proteomics; Probe/inhibitor design and synthesis; In situ labelling and imaging.

Attending/speakers: Katarzyna **Blazewska** (Lodz); Robin **Bon** (Leeds); Edgar **Deu** (London); Ozlem **Dilek** (Istanbul); Christian **Ducho** (Saarbrücken); Markus **Kaiser** (Essen); Huib **Ovaa** (Leiden); Hermen **Overkleeft** (Leiden); Stephan **Sieber** (Munich); Ed **Tate** (London); Renier **van der Hoorn** (Oxford); Mario **van der Stelt** (Leiden); Steven **Verhelst** (Leuven); Martin **Witte** (Groningen); Aaron **Wright** (Pullman); Megan **Wright** (Leeds).

Venue: Somerville College, Oxford

Organizer: Renier van der Hoorn

Co-organisers: Ed Tate, Kyoko Morimoto, Maria Font Farre
