Improving the Energy Balance of the Urban Water Cycle

FREE event

Friday 17th April 2015

Huddersfield Town

Over the last 4 years Kirklees Council and the University of Bradford have worked with 9 European partners on an EU INTERREG IVB project entitled INNERS, which has explored a range of Innovative Energy Recovery Strategies within the urban water cycle (<http://inners.eu>). This event is the first in a series of European roadshows designed to showcase the results of this wide-ranging project.

The morning session 'INNERS and People' will commence at 10.00 with an opening welcome from the Mayor of Kirklees.

This session will include presentations on a social housing project in Dewsbury where heat is recovered from the interaction of soils with the infiltration of rainwater, a sustainable swimming pool in the Netherlands heated from wastewater, the heating of 92 residential apartments in Belgium using energy recovered from the public sewer, and EU policy on energy use and recovery within the urban water cycle.

The afternoon session 'Energy recovery and re-use' will start at 13:15.

This session will include presentations on the activities undertaken by water industry professionals and modelling experts. These will include work on the DEAMON reactor, DEUGD (black/greywater separation to enhance biogas recovery) projects, waste water plant supplied local heat grids, EOS (Energy Optimisation and Benchmarking System) for Wastewater Treatment Plants and sewer network heat recovery modelling for the city of Antwerp. The event will finish at 15.00.

Arrival and registration:

Registration will take place in the Reception Room in Huddersfield Town Hall from 09.00 – 10.00 and from 12.45 – 13.15 for delegates wishing to attend the afternoon session only.

Who should attend?

This event will be of interest to asset managers; energy, carbon, and water industry professionals; policy makers; and those involved in the provision of housing and leisure services.

Book your place now, demand for this event is expected to be high.

To book your place, please email Alex Ali at A.Ali140@bradford.ac.uk and include 'INNERS Event Booking' within the subject line. In order to assist with the catering arrangements and to facilitate ease of access, can you please make it known within your email whether you have any special dietary requirements or disability needs.

Catering and networking:

Refreshments will be provided throughout the day and a buffet style lunch (Halal and vegetarian) will be available from 12.00 – 13.15 in the Old Courtroom to enable delegates to engage with the INNERS team and various exhibitions and demonstrations being provided.

Location:

Huddersfield Town Hall is a 10 minute walk from Huddersfield Train Station and a 5 minute walk from Huddersfield Bus Station. The location of Huddersfield Town Hall and nearby car parks can be seen on the map at: www.kirklees.gov.uk/visitors/documents/HuddersfieldTownCentreMap.pdf
